

Futura

We are predicting lots of strikes in your future

Futura features our latest development in coverstock design, giving you the most performance possible in this category. Imbedded inside our GSV-1 coverstock is a new core design based on the proven ancestry of our famed Game Breaker line. The combination of the two will keep you ahead of your competition for the foreseeable future.

GSV-1 Hybrid

The GSV-1 coverstock is the next generation of the most trusted and proven covers in bowling, our GB series. This coverstock formulation has opened many new doors and given Ebonite the possibility to take ball motion to the next level.

Futura HD (High Density)

The premise of the new Futura HD core design started with one of the brand's most iconic core shapes in the V2 and Enhanced V2, found in our infamous Game Breaker series. By shifting mass away from the center of the core along the X-axis and going with a higher density core material, we were able to maintain the low RG motion offered in the Game Breaker line, while at the same time increasing the backend continuation with improved overall flare potential.

FUTURA

PART NUMBER: MMFUTURAx

WWID: 20 June 2019

WWRD: 9 July 2019

WEIGHTS: 12-16lb

CORE: Futura HD (High Density)

COVER: GSV-1 HYBRID

COLOR: PURPLE/BLACK/SILVER

FINISH: 500/2000 ABRALON™

LANE CONDITION: MEDIUM TO HEAVY OIL

REACTION: STRONG OVERALL HOOK

MASS BIAS: N/A (Symmetric)

WEIGHT	RG	DIFF
16lb	2.49	0.047
15lb	2.48	0.053
14lb	2.50	0.053
13lb	2.59	0.043
12lb	2.62	0.046

RECOMMENDED CLEANER:
